COMING TO SPOKANE SAT. OCT. 2, 2021

A one-day workshop that will teach you how to help boys become the loving, wise and successful men God created them to be.

“Often a boy’s natural energy is seen as disruptive. A boy’s inquisitiveness is seen as disrespect for authority. A boy’s resilience is seen as uncaring and even too harsh. A boy’s tenacity is seen as arrogance.... Gradually the boy either instinctively rebels against this harsh interpretation of his inner self or withdraws into a deep loneliness.”

— Dr. Michael Gurian & Dr. Gregory Jantz,
Raising Boys by Design

79%

of all boys will leave the church in their early teens and 20's—and most will never come back.

100/433

For every 100 girls ages 15 to 24 who die by suicide, 433 boys die by suicide.
